INTRODUCTION

YOUTH TECH ASIA CHALLENGE HANDBOOK

Introduction

Welcome to the Youth Tech Asia Challenge (YTAC), an inspiring competition that beckons the brightest minds from across Asia to step forward and contribute ground breaking solutions and prototypes. YTAC is not just a platform for showcasing talent; it is a catalyst for addressing global challenges and fostering innovation that can usher in transformative changes for our planet.

At the heart of YTAC is the belief that the youth possess the ingenuity and passion needed to tackle the pressing issues of our time. This competition serves as a dynamic arena where participants can present their innovative solutions, each a testament to their commitment to shaping a better future. Through YTAC, we aim to create an environment that encourages the exchange of knowledge and ideas, transcending geographical boundaries and fostering a rich tapestry of cultural diversity.

YTAC is more than a competition; it is a celebration of the beauty and uniqueness of each participating country. We recognize the importance of promoting cultural exchange, and we believe that understanding and appreciating the diversity of backgrounds enriches the collaborative process. Participants are not only contributors to solving global challenges; they are also ambassadors of their own nations, showcasing the brilliance and distinctiveness of their home countries.

This event is not limited to the participants alone. YTAC provides a valuable opportunity for professionals from various industries and educators to come together. By bringing individuals with different perspectives and experiences into the fold, YTAC serves as a nexus for the enhancement of expertise. Networking with peers from diverse backgrounds fosters an environment where innovation flourishes, and collective efforts result in the cultivation of skills that extend beyond the competition itself.

In essence, YTAC is a convergence of talent, ideas, and cultural richness. It is a platform where the exchange of knowledge is not only encouraged but celebrated. As we embark on this journey, we invite participants, industry professionals, and educators alike to join hands in the pursuit of excellence, innovation, and positive global impact. Together, let us transcend boundaries, break new ground, and make a resounding difference in the world. Welcome to YTAC, where the future is shaped by the passion and brilliance of the youth.

OBJECTIVES

YOUTH TECH ASIA CHALLENGE HANDBOOK

Objectives

The objectives of YTAC are multifaceted, aligned with the overarching vision of promoting innovation, collaboration, and cultural exchange among the youth in Asia. The competition is designed to achieve the following key goals:

Inspiring Innovative Solutions: YTAC seeks to inspire and empower the youth of Asia to develop innovative solutions and prototypes that address current global issues. By fostering creativity and problem-solving skills, the competition aims to contribute to meaningful advancements in technology and sustainable solutions.

Cultural Exchange and Appreciation: YTAC recognizes the importance of cultural diversity in driving innovation. One of its primary objectives is to provide a platform for participants to exchange knowledge, ideas, and cultural insights. By doing so, YTAC aims to foster mutual understanding and appreciation, showcasing the beauty and uniqueness of each participating country.

Youth Empowerment: YTAC is dedicated to empowering the youth, emphasizing their pivotal role in shaping the future. Through the competition, participants gain a platform to showcase their talents, ideas, and contributions to global challenges. YTAC aims to instill confidence, leadership, and a sense of responsibility among the youth, nurturing them as agents of positive change.

Global Impact: YTAC aspires to be a catalyst for positive global impact. By showcasing and implementing innovative solutions, the competition aims to contribute to addressing pressing global issues. The ultimate objective is to make a significant and positive difference in areas such as sustainability, healthcare, technology, and more.

Networking and Collaboration: Beyond individual participants, YTAC serves as a meeting ground for professionals from different industries and educators. The competition facilitates networking and collaboration, creating opportunities for diverse perspectives and experiences to converge. The objective is to enhance the collective expertise of all involved and promote interdisciplinary collaboration.

Skill Development: YTAC recognizes that the competition is not just about the end result but also about the journey. The event aims to provide participants with a valuable learning experience, honing their skills in problem-solving, teamwork, communication, and critical thinking. Participants, educators, and professionals alike are encouraged to develop and refine their skills through active engagement in the competition.

Promoting Positive Change: Ultimately, YTAC strives to be a force for positive change. By nurturing innovation, cultural understanding, and collaboration, the competition seeks to contribute to a brighter and more sustainable future. YTAC participants and stakeholders are encouraged to be ambassadors of positive change in their communities and beyond.

In summary, YTAC's objectives revolve around empowering the youth, fostering innovation, promoting cultural exchange, and creating a positive impact on a global scale. It is a holistic approach that recognizes the interconnectedness of these elements in shaping a better future for our world.

AWARDS

Event Term & Condition

1. The event herein referred to is a learning tour program meticulously organized by Eduwel Sdn. Bhd, in collaboration with esteemed partners, namely Universiti Malaya, Krya Global (Indonesia), and Window Study (China).
2. Participation in this event is open exclusively to students currently enrolled in primary and secondary schools, falling within the age range of 7 to 19 years.
3. Participants have the option to partake in various workshops, lectures, and cultural activities integral to the event, subject to nominal charges. However, it is imperative to note that registration for the competition is entirely devoid of charges, adhering rigorously to the rules and regulations stipulated by the BSKK.
4. All participants are expected to adhere to a code of conduct characterized by respect and professionalism. Any behavior construed as inappropriate, inclusive of but not limited to harassment or violence, shall not be countenanced and may result in immediate dismissal from the event.
5. Participants will be accommodated in facilities arranged by the organizers. The onus lies with participants to maintain the condition of their allocated rooms and assume responsibility for any damages incurred during their stay.
6. **Safety and Security:** The organizers commit to implementing reasonable measures to ensure the safety and security of all participants. However, participants are advised to exercise due diligence in safeguarding their personal belongings at all times.
7. Participants are mandated to communicate any pertinent medical or dietary requirements to the organizers well in advance of the event.
8. It is the responsibility of participants to procure adequate travel insurance that extends coverage throughout the duration of the event.
9. The organizers shall not be held liable for any loss, damage, or injury sustained by participants during the course of the event.
10. The organizers expressly reserve the right to effect changes to the event itinerary or, in unforeseen circumstances, cancel the event outright. In such instances, participants will be promptly notified of any alterations or cancellations.

Awards

Group: Young Software / Young Hardware **Teenagers Software / Teenagers Hardware**

- Champion / 1st Runner Up – 9th Runner Up (total 10 awards)
- Best Solution for Global Impact (Idea)
- Outstanding Technical Achievement (Technical / Programming)
- Sustainability Excellence Award (Project Planning)
- Entrepreneurial Spirit Award (Commercial Outcome)
- Best Presentation and Communication (Presentation)

TECH INNOVATION RULES & REGULATIONS

YOUTH TECH ASIA CHALLENGE HANDBOOK

Tech Innovation Rules & Regulations

1. **Nationality:** Open to all type of nationality
2. **Age:** 7 years old to 19 years old
3. **Participant's member:** Can be 1 or 2 or 3 participants in one group.
4. **Representative:** Participant can represent school, center or individual representative.
5. **Mentor:** Allow NONE or ONE teacher/coach as mentor in a group.
6. **Competition Age Category:**
 - a. Young Category: 7-12 years old
 - b. Teenager Category: 13-19 years old
7. **Registration:** Participants should complete the registration process by providing their personal details, including name, age, school, contact information, and any other necessary information requested by the organizers. [<https://forms.gle/GxBaVdJQrLmKisPn7>]
8. **Research and Development:** Clearly define the theme of the competition, identify the problem, research and come up with a creative or innovative solution.
9. **Software or Hardware solution:** No restriction of using:
 - a. Any programming language (example: Java, Python, R, C++, JavaScript, C#, LUA or any),
 - b. The electronic product (Lego Mindstorm, Arduino, Raspberry Pi, ESP32, any sensors, micro-controller, or any)
 - c. Framework or device (computer, website, camera, Lego parts, metal, wood, plastic).
10. **Restriction:**
 - a. All coding scripts and structures must be ORIGINAL from participant.
 - b. No program/script can be copied from the Internet.
 - c. **NOT ALLOW** any violate, extreme, racist and pornography in the project.
 - d. **NOT ALLOW** any copy, plagiarized or taken part in the creation of projects from others.
 - e. Any project found to violate any of the above rules will result in disqualification.
11. **Competition Theme:**
 - a. **Environment (Climate Change)**

The environment encompasses the natural world around us, including the air, water, land, and the diverse ecosystems that support life. One of the most pressing global issues related to the environment is climate change. This refers to long-term changes in temperature, precipitation, and other atmospheric conditions on Earth. Human activities, particularly the burning of fossil fuels and deforestation, have significantly increased the concentration of greenhouse gases in the atmosphere, leading to a rise in global temperatures. The consequences of climate change are far-reaching and include more frequent and severe weather events, rising sea levels, disruptions to ecosystems, and threats to biodiversity. Addressing climate change requires international cooperation to reduce emissions, transition to renewable energy sources, and adapt to the changes already underway.

YOUTH TECH ASIA CHALLENGE HANDBOOK

Tech Innovation Rules & Regulations

b. Health (Health & Life)

Health is a fundamental aspect of human well-being, and global health issues impact individuals and communities worldwide. One major concern is the ongoing battle against infectious diseases. Beyond infectious diseases, non-communicable diseases like heart disease, diabetes, and mental health disorders contribute to the global health burden. Access to healthcare services, medications, and clean water varies across regions, leading to disparities in health outcomes. Additionally, lifestyle factors, food's nutrition, environmental pollution, and social determinants play significant roles in shaping health. Improving global health involves efforts to strengthen healthcare systems, promote preventive measures, address social determinants of health, and ensure equitable access to healthcare resources.

c. Economy (Personal & Global):

The economy refers to the system of production, distribution, and consumption of goods and services within a society or region. A significant global problem in the economic domain is economic inequality, where disparities in wealth and income exist among individuals and nations. Poverty, limited access to education and job opportunities, and unequal distribution of resources contribute to economic inequality. Within the broader context of the economy, personal economy focuses on the financial well-being of individuals and households. It encompasses factors such as income, employment, savings, and expenditures that directly impact the daily lives of people. A significant global challenge in personal economies is financial inequality, where disparities in income and wealth create barriers to economic mobility and opportunities for many individuals. Access to education, job opportunities, and social services plays a crucial role in shaping personal economic outcomes. That's why importance of understanding basic economic principles, budgeting, and making informed financial decisions will create healthy personal economy environment.

Participants have the capability to leverage technological methods for crafting prototypes, systems, programs, or simulations aimed at resolving issues or aiding humans in the realms of Environment (Climate Change), Health (Health & Life), and Economy (Personal & Global). This technological approach empowers individuals to devise innovative solutions that contribute to addressing global challenges and improving the overall well-being of society.

12. Competition project element: The competition must revolve around STEM education, which encompasses **Science, Technology, Engineering, and Mathematics**. The objective is to highlight the significance and benefits of STEM education in preparing students for the challenges of the future. Participants are encouraged to explore each component of STEM education individually, fostering a comprehensive understanding of their importance and application.

13. Project Submission Requirement:

- a. Deadline of the submission: 17th February 2024 @ 11.59PM.
- b. Student **MUST** send the file before the deadline.
- c. Participant must submit documents of the competition by email:

AND PACKAGES**

YOUTH TECH ASIA CHALLENGE HANDBOOK

Event Refund Policy for Participants Engaging with Logistics Arrangement and Packages

Withdrawal Notification:

Participants seeking to withdraw from the event are required to communicate their decision in writing promptly.

Refund Eligibility:

Refunds will be processed in accordance with the following schedule:

- Cancellation made more than 30 days before the event start date:
Full refund, with a nominal 10% administration fee deducted.
- Cancellation made between 29 - 15 days before the event start date:
50% refund of the total fees.
- Cancellation made less than 15 days before the event start date:
No refund shall be issued.

Non-refundable Expenses:

The subsequent expenses are deemed non-refundable:

- Visa application fees
- Travel insurance premiums
- Airfare or other transportation costs
- Any other expenses incurred by the participant prior to the event start date.

Payment Method:

Refunds shall be meticulously processed through the same method of payment employed for the initial registration.

Event Cancellation:

In the event of cancellation initiated by the organizers, participants shall be entitled to a comprehensive refund encompassing all fees tendered.

Package Fees and Attendance Commitment:

The fees associated with each package are uniformly fixed for every participant, and no customized plans are available. Participants are mandated to attend and actively participate in each scheduled event of the program. Any absence attributable to the participant is outside the purview of the organizers' responsibility, and consequently, no refunds or fee deductions will be entertained.

This policy is established with due consideration to maintain transparency and fairness, recognizing the various circumstances that may prompt participant withdrawals or event cancellations.
