

INTERNATIONAL INNOVATIVE TECHNOLOGY SUMMIT 2024

BEIJING, CHINA

THE FINAL OF YTAC 2024

Dear Participants, Teachers, and Esteemed Guests,

On behalf of EDUWEL, it is my immense pleasure to welcome you to the International Innovative Tech Summits (IITS) 2024. This moment marks a significant milestone in your journey, as this is the final station for those of you who began your adventure with the Youth Tech Asia Challenge (YTAC) earlier this year in February. Your dedication, creativity, and perseverance have brought you here, having successfully navigated the challenges of the second station, the International Creative Innovation Awards (ICIA). Congratulations on your outstanding efforts—you have truly earned your place at IITS!

This year, EDUWEL is honored to be the sole ASEAN collaborator and host for IITS. While this is our first year working with this prestigious event, IITS boasts a decade of excellence in Beijing, where it has become a cornerstone in the country's technological and educational landscape. To now bring this event to our region is not just a privilege but a testament to the growing importance of innovation and technology within our communities.

We are particularly thrilled to be joined by some very special guests today, including VIPs, esteemed teachers, and officials from the Ministry of Education. Your presence elevates this event, and we are deeply grateful for your support in fostering the next generation of tech innovators.

IITS is more than just a competition—it is a celebration of the talent, creativity, and hard work that you all have demonstrated. This event is a platform where your ideas can shine, where you can connect with like-minded peers, and where you can be inspired by the best minds in the field. We hope that this experience will not only challenge you but also inspire you to continue pursuing excellence in all your future endeavours.

As you embark on this final challenge, remember that you are part of something much larger than a competition. You are contributing to a legacy of innovation that spans across borders, one that will continue to grow and evolve with each new idea and every breakthrough. We are incredibly proud of all you have accomplished and look forward to seeing the extraordinary impact you will make in the world.

Once again, welcome to IITS 2024. Let's make this event unforgettable!

Warm regards,
Yivonn. Lo
CEO, EDUWEL Sdn Bhd

INTERNATIONAL INNOVATIVE TECH SUMMIT IITS 2024

Background:

The International Innovative Tech Summit (IITS) was established as a global platform to unite young innovators, educators, and industry leaders in exploring and advancing cutting-edge technologies. Organized by Eduwel Sdn. Bhd. and Beijing Gehua Culture Center Co. Ltd., IITS is the culmination of international tech competitions like the Youth Tech Asia Challenge (YTAC) and the International Creativity and Innovative Award (ICIA). IITS offers participants a comprehensive experience through competitions, forums, workshops, and exhibitions. It aims to inspire creative thinking, skill development, and collaboration to address global challenges. By connecting diverse minds, IITS fosters a community of innovators ready to lead in the ever-evolving tech landscape.

Objective:

International Innovative Tech Summit (IITS) is to provide a global platform for students, educators, and industry experts to collaborate, innovate, and showcase their technological and creative talents. Through a series of competitions, exhibitions, and forums, IITS aims to foster a deeper understanding of emerging technologies, encourage the development of practical skills, and promote the exchange of ideas across borders. The summit also seeks to inspire participants to address global challenges through innovation, while providing opportunities for investment and future growth in the technology sector.

INTERNATIONAL INNOVATIVE TECH SUMMIT

IITS 2024

Theme:

The theme for IITS 2024 is "Tech Innovation."

This theme embodies the essence of what this event stands for—pioneering new ideas and pushing the boundaries of technology to create solutions that not only showcase creativity but also ***possess real commercial or market value.***

Participants are encouraged to think beyond theoretical concepts and focus on developing prototypes that have practical applications in the real world. Whether it's a breakthrough in artificial intelligence, a novel approach to renewable energy, or an innovative use of blockchain technology, the aim is to create something that can be truly transformative.

The emphasis on real commercial or market value means that your innovations should have the potential to meet actual needs, solve existing problems, or open new opportunities in the market. This not only challenges you to be inventive but also to think strategically about how your creations can be scaled, marketed, and implemented in the real world.

Date:

7 Nov - 12 Nov 2024

Venue:

The China Millennium Monument, Beijing China

Competition Structure:

Categories:

1. YTAC

- a. Primary Category
- b. Lower Secondary Category
- c. Upper Secondary Category

2. Friendly Exchange Competition (*Under special invitations*)

Stages:

Final competition in 2024

INTERNATIONAL INNOVATIVE TECH SUMMIT IITS 2024

Rules and Regulations

Eligibility:

7-18 year old student

Team Composition:

1 to 3 participants in a team

Project Requirements:

1. Originality: All projects must be original, showcasing the creativity and innovation of the participants.

2. Theme Alignment and Market Value: Projects must be aligned with the event's theme of "Tech Innovation" and demonstrate real commercial or market value. The focus should be on creating prototypes that have the potential for real-world application and impact.

3. Continuation from YTAC or ICIA: Projects submitted for IITS may continue from those used in YTAC or ICIA. However, if your team composition changes by more than one member, the project must be a new submission for IITS to ensure compliance with intellectual property rights. The organisers will strictly enforce this rule, and any projects that do not adhere to it will be disqualified without a refund.

4. Judging and Appeals: The organisers reserve full rights in judging the projects, and all decisions made by the judges are final. No appeals or reconsiderations will be entertained after the judgment has been made.

5. Investment Agreements: Any investment agreements arising from the projects are solely between the investors and the participants. The organisers will not be involved in, nor take responsibility for, any investment-related matters.

6. Documentation Requirements: Each project submission must include comprehensive documentation, including an A1 size poster, and a business plan outlining potential market applications. This documentation is critical for the evaluation process and must be submitted by the specified deadline.

INTERNATIONAL INNOVATIVE TECH SUMMIT

IITS 2024

7. Presentation and Demonstration: All teams must prepare a presentation and live demonstration of their project. The presentation should clearly articulate the problem addressed, the innovation introduced, and the potential market impact. Teams will be required to demonstrate the functionality of their prototype during the judging process.

8. Submission Format and Deadline Adherence: All submissions must be in digital format, including source code, designs, and any other relevant files, and must be submitted through the designated online portal. All project submissions, including any required documentation and files, must be submitted by the specified deadline. Late submissions will result in disqualification, and any logistics fees or payments made will not be refunded.

9. Team Size and Composition: Each team must consist of 1 to 3 members. Changes to team composition after submission are not allowed unless specifically approved by the organizers.

10. Compliance with Ethical Standards: Projects must adhere to ethical standards, including respect for intellectual property rights, data privacy, and the avoidance of harmful or controversial content. Projects found to violate these standards will be disqualified.

11. Prototype Requirements: The project must include a working prototype that demonstrates the feasibility and potential impact of the innovation. Prototypes must be within the specified size and hardware limits as outlined in the competition guidelines.

12. Judging Criteria: Projects will be evaluated based on originality, technical complexity, market potential, presentation quality, and adherence to the theme. Teams should review the detailed judging criteria to ensure their project meets all expectations.

Submission: <https://forms.gle/dgH6kKLQKYEL8FBc6>

- Project Poster in A1 size (MUST print out and bring to competition)
- Business Plan PDF (Refer to the Business Plan guidelines)

INTERNATIONAL INNOVATIVE TECH SUMMIT IITS 2024

Business Plan Guideline

1. Title Slide

- Project Name
- Team Name & Members
- Logo of 3 main organisers

2. Problem Statement

- Clearly define the problem the project aims to solve.
- Include any relevant data or statistics to emphasise the importance of the problem.

3. Solution Overview

- Describe the proposed solution or innovation.
- Highlight how it addresses the problem effectively.
- Mention any unique features or technology used.

4. Target Market

- Identify the target audience or market for the solution.
- Provide demographic and psychographic details.
- Explain why this market needs the solution.

5. Market Validation

- Share any research or data that supports the need for the solution.
- Include feedback from potential users, if available.

6. Product/Service Description

- Offer a detailed explanation of the product or service.
- Include key functionalities and features.
- Consider using visuals like diagrams, screenshots, or prototypes.

INTERNATIONAL INNOVATIVE TECH SUMMIT IITS 2024

Business Plan Guideline

7. Business Model

- Outline how the project will generate revenue.
- Explain the pricing strategy and sales channels.
- Mention any potential partnerships or collaborations.

8. Marketing & Sales Strategy

- Describe how the team plans to market and sell the product.
- Include both online and/or offline strategies.
- Highlight any unique or innovative approaches.

9. Competition Analysis

- Identify key competitors in the market.
- Compare the project with competitors, emphasising its unique selling points (USPs).

10. Financial Overview

- Provide a basic financial forecast (e.g., revenue, costs, profit margin).
- Mention any initial funding or investment required.
- Show the break-even point, if applicable.

11. Roadmap & Milestones

- Present a timeline of key milestones achieved so far.
- Outline future steps and goals for the project's development and growth.

12. Team Overview

- Introduce the team members and their roles.
- Highlight any relevant skills, experience, or achievements.
- Mention any external advisors or mentors if involved.

INTERNATIONAL INNOVATIVE TECH SUMMIT IITS 2024

Business Plan Guideline

13. Conclusion

- Summarize the key points of the presentation.
- Reiterate the value proposition of the project.
- End with a call to action or what the team needs to move forward (e.g., investment, partnerships).

14. Q&A Slide

- Leave a slide for questions and answers at the end.

**The guidelines are for reference only.*
