YOUTH TECH

ASIA CHALLENGE 2026

亚洲青少年科技挑战赛

Key Milestones of YTAC

2022

YTAC was launched in Kuala Lumpur, Singapore, Johor Bahru, Bangkok, and Penang, establishing itself as a regional event for youth to compete and exchange tech knowledge.

2023

The competition shifted online due to global circumstances, allowing broader international participation and introducing new digital formats.

2024

Hosted at Universiti Malaya, Kuala Lumpur, this year marked the first hybrid format, with both in-person and online participants from across Asia.

2025

Hosted at Imperial Hotel, Kuching, Sarawak, YTAC evolves with a fresh challenge format (Tech-Hackathon) and new categories, along with 144 teams that joined the competition.

2026

YTAC 2026 OVERVIEW

Event Details:

-  Dates : 7th - 9th of January 2026
-  Location : Tech Dome, Penang, Malaysia
-  Total teams : 150 Teams

Competition Registration Form

 Link: [Click Here](#)

Competition Registration Fee

 Free of Charge for Malaysia Citizens

Age Requirement

 All participants must be students aged between 7 to 18 years old in year 2026.

Team Formation:

-  Each team must consist of 1 to 3 members.
-  Teams can be formed from the same or different organization/schools.
-  The category of a team will be determined by the eldest member's age.
Example: If a team has members aged 7, 9, and 14, this team must register under the Secondary Category (since the eldest is 14).

YTAC 2026 OVERVIEW

Competitor Categories:

- **Inno-Tech Challenge [Digitalize]**
 - Primary Group: (Age 7-12 in 2026)
 - Software
 - Hardware
 - Secondary Group: (Age 13-18 in 2026)
 - Software
 - Hardware
- **Inno-Maker Challenge [non-Digitalize]**
 - Primary Group: (Age 7-12 in 2026)
 - Secondary Group: (Age 13-18 in 2026)
- **Tech-Hackathon**
 - Kids Coding (Age 7-12 in 2026)
 - Teenager Coding (Age 13 - 18 in 2026)

Inno-Tech Challenge & Inno-Maker Challenge

Rules & Regulations

1. Theme Alignment

- Projects must be directly aligned with the official competition theme; entries that do **NOT REFLECT THE THEME** will **NOT BE ACCEPTED**.

2. New Project

- All entries must be new original tech projects, previously submitted projects is prohibited.

3. Originality

- The participants or their team must fully develop projects.

4. Content Restrictions

- Projects must **NOT** include violent, explicit, political, racial, religious, or any other content that may disrupt social harmony.
- Any violations will lead to **DISQUALIFICATION**.

5. File Submission

- All projects and required documents must be submitted online before the competition.

6. Presentation

- Projects must be fully functional and demonstrable during the competition.
- Participants must be able to explain the project's features, applications, and development process clearly.

7. Participant Terms

- Teams **MUST** follow all organiser's rules and regulations.
- Participants retain full intellectual property rights, but organisers may display the projects during the event.
- Projects that don't meet the rules or requirements will be **DISQUALIFIED**.

Inno-Tech Challenge

Theme : Intelligence

Overview

- The Inno Tech Challenge is a **coding-based innovation** competition where participants are required to **design and develop a functional project using programming**.
- Participants **must use a programming language** and/or **relevant technologies** to bring their project idea to life.
- E.g. Traffic Light Simulation – A coded simulation showing how smart traffic systems can reduce congestion.

Sub-Themes

Projects must be related to at least one of the following areas:

- Transportation
- Urban Living
- Climate Action
- Natural Conservation
- Health
- Lifestyle & Security
- Education
- Economic

Submission Requirements

Each team must prepare and submit the following:

- **X-banner (PDF)** : ► [Click Here](#)
- **Project Code File**
- **Presentation Video**

Inno-Maker Challenge

Theme : Better Living for Earth and Humanity

Overview

- The Inno Maker Challenge is designed to inspire children to explore **creativity, innovation, and problem-solving without the need for coding** or advanced technical skills. Instead, participants are encouraged to **imagine, design, and present a product, concept, or prototype** that reflects their unique ideas.
- E.g. seed paper notebook - A notebook made from seed paper that can be planted after use.

Sub-Themes

Projects must be related to at least one of the following areas:

- Environment
- Humanity
- Community

Submission Requirements

Each team must prepare and submit the following:

- **X-banner (PDF) :** ► [Click Here](#)
- **Prototype blueprint or image.**
- **Presentation Video**

Inno-Tech Challenge & Inno-Maker Challenge

Judging Criteria

Criteria	Descriptions
Originality, Idea Creativity, Innovation	◦ Presents a new or rare idea/product/service in the market ◦ Enhances and elevates existing concepts, making them more complete, convenient, and user-friendly
Practical Usefulness	◦ Highly practical and relevant. Fully meets user needs and provides real benefits.
Social Impact	◦ Creates strong, meaningful impact that benefits society or community.
Cost Effectiveness	◦ The costing is very low, yet the product/service functions are all highly useful and effective
Sustainability	◦ Long-lasting, low maintenance, with long-term stability and consistent results.
Presentation	◦ All members present confidently without notes ◦ Clear, well-structured speech ◦ Answers questions smoothly and in detail.

Video Presentation Template

Video Recording & Submission

- Add the **video bumper** in before your project showcase video.

Video bumper link:

https://drive.google.com/drive/folders/1w9GvoCVfV5butPUaToK7i5Chxmp_Lg_U?usp=drive_link

- Record a video with your teammates showcasing your project. Make sure that **all** of your teammates are involved in the video. (**Max video length = 3 mins without video bumper**)
- For the **video uploader**, please ensure that your **social media account** is made **public**.

Here is a step-by-step guide on how to post your video:

- **Step 1:** Write your team name, category, and a small description explaining your project.
- **Step 2:** Add the video to your post.
- **Step 3:** Tag YTAC's Facebook page and these tags to your post: **#YouthTech #YouthInTech #YTAC2026 #EDUWEL #TechInnovation**
- We will only look at **one post per social media platform per group**. Only **Facebook, TikTok and Instagram** are acceptable.
- **Template updates coming soon**

Booth Setup

We will provide:

- 1 banquet table (2ft x 4ft) without a tablecloth
- 2 chairs

Participants are required to bring:

- X-banner
- Tablecloth
- Decoration materials
- Project display items (e.g., laptops, prototypes, or demonstration equipment)
- Any additional power cords or adapters required

Inno-Tech Challenge & Inno-Maker Challenge ONLY

Tech-Hackathon

Rules & Regulations

1. Programming Language Allowed

- **Block-Based:** Scratch, MakeCode, or any BLOCK MODE
- **Text-Based:** Python, JavaScript, C++, Java, or any backend language.

2. External Help

- **NO teachers, mentors, parents, visitors, or external helpers** are permitted while the competition is in progress.
- During the competition, only registered participants and official judges are allowed inside the competition area.

3. Communication Restrictions:

- Participants **CANNOT USE** WhatsApp, Zoom, Google Meet, or any other **TELECOMMUNICATION** tool to seek help or guidance from outsiders during the competition.
- All work must be completed solely by the participating team members.

4. Harassment and Cheating:

- Any form of harassment, cheating, or violation of the rules will result in immediate **DISQUALIFICATION**.

Tech-Hackathon

Tier 1 – Player vs Player

General Rules

- Participants may register as a team, but in this round each member **competes individually**.
- A total of **20 questions** will be given.
- **ANY** programming language is **PERMITTED**, as long as the **final output strictly matches the expected results**.

Question Format

- Kids Coding : Solutions must be created using **block-based programming**.
- Teenager Coding : Solutions must be written in **text-based programming**.

Scoring Criteria

Scores will be calculated based on three key factors:

- **Accuracy** – Number of correct answers.
- **Speed** – Time taken to complete.
- **Efficiency** – Code quality and optimization (shorter and well-structured code scores higher).

Duration & Submission

- Total competition time: **2 hours**.
- At the end of 2 hours, participants must submit their work, whether or not all 20 questions are completed.

Strict deadline policy

- Submissions received after the 2-hour deadline will be **NOT ACCEPTED**.
- No grace period will be given.

Tech-Hackathon

Tier 2 – Group vs Group

General Rules

- In this round, participants will compete in their registered teams.
- The project title/theme will be revealed on the competition day.
- **ANY** programming language is **PERMITTED**, as long as the **required functions and features are implemented correctly**.

Question Format

- Kids Coding : Solutions must be created using **block-based programming**.
- Teenager Coding : Solutions must be written in **text-based programming**.

Scoring Criteria

Scores will be calculated based on three key factors:

- **Functionality** – Number of required functions/features successfully implemented.
- **Completeness & Usability** – How well the project works as a usable solution.
- **Time Efficiency** – Ability to complete and deliver the project within the allocated time.

Duration & Submission

- Total competition time: **3 hours**.
- At the end of the 3 hours:
 - Each team must submit their project **IMMEDIATELY**.
 - Each team must deliver a **3-minute presentation** to showcase their project, highlighting its functions & features.

Important Notes

- This is a team-based round. All members are expected to contribute.
- Teams must manage their own time for coding and preparing the presentation.
- Late submissions will **NOT BE ACCEPTED**.

YTAC 2026 RUNDOWN

Day	Agenda
7 Jan 2026 (Wednesday) 8.00am – 6.00pm	◦ Workshop 1 ◦ Workshop 2
8 Jan 2026 (Thursday) 8.00am – 6.00pm	◦ Registration & Setup ◦ Opening Ceremony ◦ Peer Voting ◦ Competition ◦ Lunch ◦ Judging Section
9 Jan 2026 (Friday) 8.00am – 12.00pm	Closing Awards Ceremony

PACKAGES	PRICE	DATE
LUNCH	RM 30	8 JAN 2026
WORKSHOP A	RM 50	7 JAN 2026
WORKSHOP B	RM 50	7 JAN 2026
WORKSHOP A + B (7 JAN) LUNCH (8 JAN)	RM 100	7 JAN 2026

Eating is strictly **PROHIBITED in Tech Dome.

YTAC 2026 AWARDS

Awards Illustration

Award	Clarification
The Most Popular Award	For the project with the most support through peer votes or social media likes.
The Sustainability Idea Award	For the project that best supports eco-friendly or sustainable living.
The Best Presentation Award	For the clearest and most engaging presentation.
The Outstanding Tech Award	For the project with the most impressive use of technology.
The Speed Coder Award (Individual)	For the participant who codes the fastest with correct results.
The Swift Solution Award (Team)	For the team that delivers the quickest correct solution.
The Algorithm Mastery Award (Team)	For the team with the best use of algorithms and problem-solving.
Best Collaboration Team Award (Team)	For the team with the best teamwork and communication.

** Top Awards are given to teams or individuals that excel in every facet of the competition.

** Teams or individuals that have demonstrated exceptional strength in a particular area but did not receive a Top Award are given Special Awards.
